

To Whom it May Concern,

My name is Jon Sullivan, and I am Pivot Energy's Managing Director for Project Development for the State of New Mexico. This letter is to invite you to a pre-application virtual neighborhood meeting to be held:

Date: November 29, 2022

Time: 4:30 PM – 6 PM

Video Call Information: Please see the information to access the video or phone call on the next page.

We are a community solar company and are working with Santa Fe County to permit our project. The site is owned by the State of New Mexico Land Office and is located at 4396 NM 14. The parcel number for this property is 99307749. This parcel is currently vacant, and we are proposing to build a Community Solar Garden.

Since you are located near our project site, I am reaching out to introduce myself and tell you more about Community Solar and the many benefits that it will bring to the community. The project we are proposing will be approximately 5 MWac in size and will cover about 30-40 acres of land.

We believe Community Solar Gardens make great neighbors because the equipment is quiet, no emissions or odors are produced, no onsite employees during operation, no lights, and there are negligible impacts on traffic.

I have included a few photos of similar projects that we have worked on. Pivot has completed numerous Community Solar Gardens across the United States and has helped many individuals and companies lower their electricity bills.

Please join me over Zoom to hear a brief presentation and then Q&A about this project. If you are unable to attend our meeting, please do feel free to reach out to me directly - my contact information is included below. Please also feel free to call the County directly at (505) 986-6200.

Best,

Jon Sullivan
