

*Below is the text of an email sent to Patricia Rees, Senior Project Scientist at TriLeaf, a subcontractor of AT&T. TriLeaf had requested sites in and around Cerrillos from which they could create simulated views of the cell tower if it were to be installed*

*The San Marcos Association, the Cerrillos Hills Park Coalition and Las Candelas de Los Cerrillos combined efforts to respond.*

*The images below the email are screen shots showing the locations of the sites we sent to TriLeaf in mid-October.*

## ***THE SAN MARCOS ASSOCIATION***

P.O. Box 722  
Cerrillos, NM 87010

[via email]

Dear Ms. Rees:

Thank you for granting the Cerrillos community an extension so that we could provide you with a more substantive selection of sites from which to create simulated views of the proposed AT&T cell tower on the ridge above the Village of Cerrillos and adjacent to the Cerrillos Hills State Park. Attached are a .kmz file with our proposed locations, and a collection of photos from many of those sites. We have identified nineteen (19) sites and have attached fifteen (15) photos. The photos and .kmz locations should be easy to align by their titles.

For sites where we have provided photos, please use those photos to create your simulated views. This will make them easy to share with our community.

The citizens of Cerrillos and surrounding areas appreciate your willingness to work with us and look forward to seeing your simulations. You may send them to this email address when they are complete.

Sincerely,

Dennis D. Kurtz, President  
The San Marcos Association

Ross Lockridge, President  
Cerrillos Hills Park Coalition

Todd Brown, President  
Las Candelas de Los Cerrillos
